WEB DEVELOPER

I am a detail-oriented web developer with a diverse professional background, adept at adapting swiftly and embracing new challenges. Recently graduated with a Diploma in Full-Stack Web Development from Concordia University, Montreal. Proficient in both front-end and back-end development, specializing in the MERN (MongoDB, Express.js, React.js, Node.js) stack.

SKILLS

- **Front-end:** React.js, JavaScript, HTML, CSS
- **Back-end:** Node.js, Express, MongoDB
- **Tools and Methods:** Git, GitHub, Trello, Balsamiq, Vercel, npm/yarn
- **Currently learning:** TypeScript

WEB DEVELOPMENT PROJECTS

Motion Mind Fitness Journey

- Developed a web application using React JS, MongoDB, and integrated YouTube API to facilitate mobility improvement through curated routines.
- Implemented PR (Personal Records) tracking to monitor user progress in mobility and flexibility.
- GitHub: GitHub Repository ; Live Version: Motion Mind Fitness Journey

Technologies:

- Front-end: React, JS, HTML, CSS
- Back-end: MongoDB, Node.js, Express.js

E-Commerce Website

- Collaborated on a group project to develop an E-commerce application focused on wearable technologies.
- Managed backend development and integration with frontend for seamless functionality.
- GitHub: GitHub Repository ; Live Version: E-Wear-Emporium

Technologies:

- Front-end: React, JavaScript, HTML, CSS
- Back-end: MongoDB, Node.js
